MILLIONS INDEMNITY

China Willing to Pay Japan a Large Sum.

IT MAY SETTLE THE WAR.

The Chinese Customs Chief Departs For Japan to Try and Arrange Terms of Peace—Still There Is Fighting Going on in the Vicinity of Port Arthur—Desperate Battle Reported.

TIEN-TSIN, Nov. 23.—The chief of the imperial customs here, De Ting, who was recently summoned to Peking in order to confer with the government as to ways and means for raising money for the war, has left for Japan in order to arrange terms of peace.

It is reported that China has intimated that she will offer to pay a war indemnity of 100,000,000 taels, and in addition pay all the war expenses incurred by Japan.

AS VIEWED IN WASHINGTON.

China's Offer to Japan Considered a Very Liberal One.

WASHINGTON, Nov. 23.—The departure of the Chinese customs chief for Japan is regarded by the officials here as the result of Japan's demand for a direct offer from China. The De Ting mentioned in the cable is said to be Dietrich, a German, who occupies the position of commissioner of customs.

That he should be sent as the peace envoy is accounted for by officials on the ground that an indemnity would probably be secured on the customs receipts of China. It has been one of Japan's contentions that she would expect to receive the customs receipts of the big Chinese ports in case an indemnity was arranged.

It is said that the Chinese envoy will probably be the guest of United States Minister Dunn at Tokio. Japanese officials say he will be accorded every courtesy.

China's offer to Japan is regarded here as quite large, and it is believed arrangements between the two nations could be effected on terms providing for a smaller war indemnity. As the war expenses reach 150,000,000 taels, the total offer of China would be 250,000,000 taels.

The tael is a Chinese silver coin worth about 75 cents at the present exchange, so that the whole payment would be approximately \$175,000,000 American.

THE WAR STILL GOES ON.

A Desperate Battle Said to Have Taken Place.

YOKOHAMA, Nov. 23.—The Chinese Pei-Yang squadron of warships attacked and shelled the Japanese troops, who were marching upon Port Arthur, the troops having taken a road near the coast.

The Japanese fleet came to the assistance of the troops, and a desperate fight took place between the Chinese and Japanese warships, the result of which is not known.

The Chinese battle ship Chen Yuen became useless during the fight and ran ashore in trying to avoid the torpedoes at the entrance to the harbor of Wei-Hai-Wei.

Incessant Firing Going On.

TIEN-TSIN, Nov. 23.—Reliable information received here from Port Arthur shows that the first attack of the Japanese drove in the Chinese outposts. Three other attacks were subsequently made but in each instance the Japanese were repulsed. Heavy and incessant firing has been going on since noon Tuesday. The Japanese are landing additional troops. They warned a British vessel to clear as their fleet intended to bombard the forts Wednesday.

TO RESTORE LILI.

The Government of Hawaii Guarding Against a Plot.

HONOLULU, Nov. 23.—Per steamer Mariposa, via San Francisco, Nov. 23.—That the government is still slightly in fear of the royalist uprising has been evident during the last week. All the guards in the suburbs have been doubled, and a close watch has been kept on all suspected persons.

The cause of this sudden activity is alleged to be the discovery of a plot to restore the ex-queen.

Elkins Sure of Election.

BALTIMORE, Nov. 23.—A special to The News from Wheeling, says: A canvass yesterday of Republicans elected to the legislature removes all doubt of the election of S. E. Elkins to the United States senate. Every member from the Second and Fourth districts has declared for him, with over half of those in the Third and First.

SANTA FE, N. M., Nov. 23.—Archbishop P. L. Chapelle, who is ill with pneumonia, is considered by his physicians to be now out of danger. Wednesday night he became so ill that it was thought necessary to administer the last sacrament, but he rallied last night and is steadily improving.

Sick From Eating Raw Oysters.

NEW HAVEN, Nov. 23.—Charles Sumner Gale, Yale '95 of Minneapolis, was yesterday taken to the Yale infirmary suffering with typhoid fever. He attended the Wesleyan banquet, and the physicians stated that his illness is undoubtedly due to eating raw oysters.

Two Thousand Were Killed.

LONDON, Nov. 23.—A Vienna dispatch to The Standard says that advices received there from a Turkish source show that 2,000 Armenians were killed in the recent massacres in Armenia.

DEATH OF GENERAL GIBSON.

After A Brief Illness He Dies at His Tiffin Home.

TIFFIN, O., Nov. 23.—Every bell in Tiffin at 6:30 o'clock last night rang out a knell notifying all that General William H. Gibson, the statesman, soldier and Christian citizen, had passed away. General Gibson had been ailing for some time, and took to his bed a few days ago. Only the immediate members of the family and the doctor were at the bedside when death came. The funeral will be held Sunday afternoon under the direction of the G. A. R.

William Henry Gibson was born in Jefferson county, O., May 16, 1822. He received his early education in the schools of Seneca county and afterward spent two years at Ashland academy. Then he learned the trade of a carpenter.

As his intellectual horizon began to widen he made up his mind to study law. His chosen profession proved to be well suited to his tastes and capability and he rose rapidly. In 1843 he settled in Tiffin, and for the remainder of his long and honorable career he was one of the foremost citizens of that city. In 1847 he married Miss Martha M. Greger. Four children were born to Mr. and Mrs. Gibson, two sons and two daughters. The daughters are both living, but the sons are dead.

At the opening of the war Mr. Gibson became colonel of the Fourteenth Ohio volunteer infantry. From Shiloh to Atlanta he was never found wanting when duty called. He commanded a brigade for more than two years. In the reports of all the campaigns and battles in which he served he was commended by every superior officer.

General Gibson served the state in several important offices. He was state treasurer and later attorney general, and still later and for a long time president of the canal commission. He was one of Ohio's most famous orators.

ALCOHOLISM AND CRIME.

Some Interesting Statistics Collected by a Prison Warden.

MICHIGAN CITY, Ind., Nov. 23.—Warden French of the prison north has been collecting statistics on the relation of intemperance to crime. "Six hundred out of the 900 men in the northern penitentiary have told me that their downfall is due to liquor. Doctors, you know, have recently been giving a good deal of attention to the appetite for drink, and they say that it is a disease and a curable disease. If this is true I believe that the state should establish institutes in the prisons to treat the convicts for the liquor habit. In that way we should be taking a direct prevention against more crime."

"Another interesting table of statistics which we have made relates to the number of married and unmarried convicts. Two-thirds are single men. It indicates that men who do not marry are most easily led into wrong-doing."

Bomb Discovered.

SOUTH BEND, Ind., Nov. 23.—It has just come to light that a bomb has been lying in the office of the chief of police for several weeks. It appeared to be a giant firecracker and was brought there by a German who found it near the Oliver chilled plow works. It excited so much comment that Captain Cassidy opened it and found that it contained powder and a stick of dynamite four inches long. Had it, from any cause, exploded, it would have destroyed the station and other property and killed a number of people. The intention may have been to blow up the station, but this is unlikely.

Fitzsimmons Not Held.

SYRACUSE, Nov. 23.—The inquest over the body of Cornelius Riordan, the prize fighter, who became unconscious while sparring with Bob Fitzsimmons on Friday night last, and died a few hours later, was held here last night. Many witnesses were examined. The jury, which was composed of some of the representative business men of the town, brought in a verdict at 1 o'clock, exonerating Fitzsimmons. District Attorney S. J. Shove says that despite the verdict he will present the case to the grand jury of Onondaga county.

Gusher at Muncie.

ANDERSON, Ind., Nov. 23.—State Gas Inspector Jordan's attention is called to the fact that one of the best gas wells drilled here came in yesterday, and long range measurements put it a gusher up in the millions of cubic feet. This well is for the national tinplate mill, and will supply much more gas than the mammoth plant can use. It is reported here that the Anderson Fuel company, controlling the gas supply to this city, is negotiating with the pipeline company supplying Indianapolis. The officials refuse to talk.

New Treaty With Japan.

WASHINGTON, Nov. 23.—There is good reason to believe that Secretary Gresham and Minister Kurino yesterday afternoon added the finishing touches to the new treaty between the United States and Japan, and that the document now awaits only the ratification of the senate and of the Japanese government, the latter being almost beyond question. The new treaty abolishes after about five years the system of consular court jurisdiction which has been so obnoxious to Japan and also treats of commerce and trade relations.

ASTORIA, O., Nov. 23.—The Northwestern Natural Gas company has a war on its hands at Bloomdale. An ordinance recently passed by the village council, prohibits gas from being piped out of the corporation. The Northwestern piped gas out under cover of darkness one night this week, and Wednesday night somebody with, or without, authority from the council, cut the pipe connection near the well. There is a bitter feeling against the company, and trouble is feared.

TREASURER'S REPORT

Condition of the United States Treasury.

DOINGS OF THE PAST YEAR.

Two Important Events Was the Issue of \$50,000,000 of 5 Per Cent Bonds and the Stoppage of the Purchase of Silver Bullion by the Issue of Treasury Notes—The Daily Statement.

WASHINGTON, Nov. 23.—The treasurer of the United States, Hon. H. D. Morgan, has submitted to Secretary Carlisle the annual report on the operations and condition of the treasury.

The net ordinary revenues for the fiscal year ending June 30, cents omitted, were \$397,722,019, a decrease of \$83,097,609, as compared with the year before. The net ordinary expenditures were \$367,525,279, a decrease of \$15,952,674. Including the public debt the total receipts on all accounts were \$724,006,538, and the expenditures \$698,908,552.

At the close of business on June 30, 1894, there stood on the books of the department charged to the treasurer a balance of \$738,467,555. Adding to this the receipts on all accounts, gives \$1,476,935,073 as the total to be accounted for, and deducting the expenditures, leaves a balance of \$738,467,555 on June 30, 1894. In addition to these balances, however, there were other liabilities, arising from the postal revenues, from disbursing officers and from other sources, which brought the total to \$776,041,803 at the former date and to \$804,854,753 at the latter.

After setting aside the amounts treated as unavailable, the principal of which are the deposits made with the state under the law of 1836, there remained the sum of \$746,538,655 in 1893, and the sum of \$775,310,559 in 1894, represented by five assets in the several offices of the treasury and mint, together with deposits in national banks. Of these balances the sums of \$384,593,920 and \$316,155,820, respectively, were on deposit for the redemption of outstanding certificates and treasury notes, leaving \$161,994,735 and \$153,154,739 as the balances on account of the general fund.

The treasurer remarks that the impairment of the gold reserve, rendering necessary the issue of bonds in February, was caused chiefly by the depletion of the treasury resulting from insufficient revenues. Even when the supply of paper had become so reduced that the treasury was obliged to pay out large sums of gold in the ordinary disbursements, the coin was freely returned in the revenues. The proceeds of this loan were \$58,660,000 in gold coin and certificates, but during the month of February there were redeemed \$19,200,000 of notes in gold, presumably to meet subscription to the loan, so that the net gold proceeds were about \$39,500,000.

This, together with a gain of \$1,500,000 in gold from ordinary sources, brought up the reserve, during the month, from \$65,000,000 to \$106,500,000, while the net assets of the treasury, with an excess of \$7,000,000 of expenditures over receipts for the month, increased from \$125,000,000 to \$177,000,000. During the succeeding months, till the end of the first week in August, the reserve was affected by deficit revenues and withdrawals of gold for export, the movement abroad having been stimulated by the necessity which the treasury was under of furnishing to exporters new full weight after the supply of old pieces had become exhausted. The lowest point touched by the reserve was \$52,189,500 on Aug. 7, 1894.

Prior to July, 1892, the gold reserve was but little affected by withdrawals of coin, there never having been any considerable demand for the redemption of notes. Even when gold exports were heavy the metal was furnished by bankers from their vaults or was obtained from the treasury for gold certificates, of course without impairment to the reserve. During the last two years, however, the treasury has been called upon to furnish nearly the whole of the requirements for exportation and there have recently been considerable withdrawals for other uses.

To the end of September last the total redemptions of the United States notes in gold since the resumption of specie payments were \$131,300,000, and the total redemptions of treasury notes in gold from their first issue were \$63,500,000.

The two important events of the year affecting the condition of the public debt were the issue of \$50,000,000 of 5 per cent bonds to replenish the gold reserve and the stoppage of the purchase of silver bullion by the issue of treasury notes.

With reference to the retirement of treasury notes, the treasurer says that prior to August, 1893, the treasury had been able to provide for the redemption of treasury notes in silver dollars out of the holdings of free silver, so that there had not been, up to that time, any impairment of the total amount of silver fund accumulated under the act. On the 3d of that month, however, the silver dollars and bullion in the treasury had become reduced to the amount required by law, to be retained for the payment of outstanding treasury notes and certificates, and the demand for the redemption of notes continuing in consequence of the scarcity of small denominations of currency, it became necessary to draw upon the dollars coined especially for that purpose. The silver fund being thus impaired, the notes so redeemed were cancelled in order to preserve the required equality between the silver in the treasury and the notes outstanding. The total

amount of the notes retired in this way up to Oct. 31 was \$1,790,434.

The amount of the new issue of United States paper currency put into circulation during the year was \$350,959,190, having been exceeded but once, in 1893. The amount of worn and mutilated notes redeemed was \$319,603,290. This has also been exceeded but once, in 1893. The total paper circulation reached its highest point in May, last, when it stood at \$1,725,000,000. Since then there has been a slight contraction, caused chiefly by the gradual redemption and retirement of gold certificates, the issue of which was suspended, as the law requires, when the gold reserve of the treasury fell below \$100,000,000.

The management of the Columbian exposition having finally decided to defray the expenses of reopening the Columbian half dollars which have found their way into the treasury, they have been offered to the public at par in exchange for gold or gold certificates, and a considerable sum of them has been distributed in that manner.

The Isabella quarters in the treasury are retained for the requisition of the board of lady managers of the exposition.

The amount of counterfeit silver coins and fractional currency detected at the offices of the treasury during the year was \$10,500, an increase of \$900 over the year before.

Under the provisions of the last Indian appropriation act, the face value of certain defaulted state bonds and stocks formerly belonging to the Indian trust fund has been placed upon the books of the treasury to the credit of the several tribes, to draw interest at the rate of 5 per cent per annum, and the bonds and stocks have become the property of the United States.

There was an increase during the year of \$1,552,350 in the face value of the bonds held on account of the sinking funds of the Pacific railroads, which amounted on June 30 to \$18,960,000.

Notwithstanding a change in the regulations, whereby senders of national notes for redemption were required to bear the charge for transportation, the redemptions were the heaviest since 1886, amounting to \$105,000,000, or more than half of the average circulation.

Daily Statement.

WASHINGTON, Nov. 23.—The cash balance in the treasury yesterday was \$100,411,950; gold reserves, \$57,742,764.

ITALIAN WOMAN MURDERED.

Her Husband Is Missing and Suspected For the Crime.

NEW YORK, Nov. 23.—Primitiva Foglia, 19 years old, a pretty Italian, the wife of Bernardi Foglia, an ice-cream man, was found dead yesterday evening in her room. She had a bullet wound in her head which caused her death, and the circumstances indicate that she was murdered. Her husband has fled and the police are looking for him. He has not been seen since Monday evening when he and his young wife were seen together. Monday evening was also the last time she was seen alive, and it is believed she was killed that night.

In the sitting-room the body of the wife was found. She had evidently been reclining on a soft divan when she was shot. On the left side of the face, the finger marks of the supposed murderer were visible. A revolver was found lying by her.

It is said the husband was very jealous and they often quarreled on that account, but none of the people in the house had heard any disturbance in their rooms.

A BUSY SESSION.

A Number of Resolutions Adopted by the Knights of Labor.

NEW ORLEANS, Nov. 23.—Knights of Labor had a busy session yesterday. Resolutions were adopted that each local assembly shall make a maximum scale of wages above the regular scale adopted by the national trades assembly, that all grievances and complaints must come up in the local courts of the assemblies within 60 days; that the legislatures of the various states be memorialized to enact laws providing for the creation of state labor bureaus; that all tradesmen shall affiliate with organizations of their own trade; that in labor parades no flags except the national colors shall be carried; that a delegate to the assembly shall take his seat after his alternate has been seated, and that a plank be inserted in the Knights of Labor preamble against gambling in farm products or options.

A resolution making ex-representatives to the general assembly ineligible as officers, was defeated.

Women Wind Up Their Work.

CLEVELAND, Nov. 23.—The executive committee of the Woman's Christian Temperance union held a post convention meeting yesterday, lasting far into the evening. The most important matter that came up was a resolution to admit men to full membership in the young ladies' branch. The subject was fully discussed and the decision finally reached was that such a change was inexpedient, inasmuch as when the proper time arrived the Woman's Christian Temperance union itself should admit men to membership and eliminate the word "woman's" from its name in case anything of the kind was deemed expedient. Baltimore was selected as a meeting place for the next annual convention.

TOLEDO, Nov. 23.—The preliminary hearing in the Paulding double murder case took place yesterday. Charles Hart and Clarence Brindle were bound over without bail. Levi Cain, the third suspect, was released. The evidence against Hart and Brindle was far more conclusive than Paulding citizens had hoped for.

RANIER OUT OF SIGHT

Washington's Volcano Hid by Cloudy Weather.

OBSERVATIONS IMPOSSIBLE.

No Further Information Has Been Received as to the Actual Condition of the Mountain Believed by Many to Be in a State of Eruption—A Great Fissure in the Earth Has Been Discovered.

SEATTLE, Wash., Nov. 23.—Hazy weather has prevailed throughout the Puget sound country and Mount Ranier, or Tacoma, has been obscured. For this reason it has been impossible to make any observations or obtain further information as to the actual condition of the mountain believed by many to be in a state of eruption.

A person who has made the ascent, and is therefore familiar with the summit, saw the mountain at the time when the smoke and steam were observed rising from its summit. He does not credit the story of a change in the form of the summit. His theory is that the vapor was steam condensed by the contact of warm currents of air with the icy mountain. Others who observed the vapor are positive in their adherence to their original statement, and several of them examined the mountain through powerful glasses, and have made drawings of the summit, showing the new peak.

A special to The Post Intelligencer from Ellensburg says: The eruption of Mount Ranier has explained to the satisfaction of many a mystery here which has baffled all. The waterworks reservoir here suddenly became exhausted. Investigation showed a crevice running along the hill north and south, from one inch to one foot in width and of unknown depth. It ran directly through the reservoir, letting the water out. It has been traced several hundred feet along the hill. No shocks of earthquake have been felt here as far as known.

THE EARTH SHOOK.

The Disturbance Felt at Tacoma Quite Perceptible.

TACOMA, Nov. 23.—There were no new developments here yesterday in the Mount Ranier or Tacoma story, except that many more persons reported having felt the slight shock of earthquake at 6:30 Wednesday night. Reports have been received showing that it was felt in every section of the city.

It has been cloudy ever since, rendering further observation of Mount Tacoma impossible.

J. F. Hopkins, a clerk in the Northern Pacific warehouse at the wharf, says he felt the earthquake shock distinctly in the warehouse on the water's edge.

The shock was severe enough to attract the attention of women engaged in household duties and rattled window glass.

Professor F. C. Plummer, who has been investigating the matter, says he is firmly convinced that a mild eruption of the mountain is in progress.

READY FOR THE BONDS.

New York Parties Will Probably Take the Entire New Issue.

NEW YORK, Nov. 23.—The New York agency of a large Canadian institution has received from its correspondents at San Francisco \$250,000 in gold within the last two days, and \$500,000 in gold has been shipped by the Bank of Montreal to its agency in this city for the purpose of subscribing to the government loan.

A Wall street banking firm with Paris and San Francisco connections, is also receiving small parcels of gold from California.

It is announced that banks and other financial institutions in this city will subscribe for the entire issue of \$50,000,000 government fines.

Dynamite Threats at Montreal.

MONTREAL, Nov. 23.—Recorder De Montigny received an anonymous letter threatening him with death for having signed the petition directed against the erection of a statue to Dr. Cheney. Thursday he received another, this time with a dynamite cartridge as an enclosure. The letter stated that the cartridge indicated the manner in which death is to be inflicted. The Dr. Cheney in question was one of the French-Canadian leaders of the rebellion against British authority in 1837. The monument proposition is distasteful to the many French-Canadians, as he died outside the pale of the Roman Catholic church.

McKane a Model Convict.

NEW YORK, Nov. 23.—John Y. McKane is said to feel hopeful of soon being released from Sing Sing prison by a decision of the court of appeals. He, however, takes as much interest in overseeing a gang of convicts in erecting new buildings in the prison yards as if he expects to serve out his full term of six years to which he was sentenced about seven months ago. Warden Sage said that McKane is a model convict, and a valuable man in the building line to have about the prison. McKane, after finishing his day's work for the state, spends two hours every evening writing business letters.

Panic in School.

BRIDGE, Mass., Nov. 23.—The bursting of the steam apparatus in the Center school building Thursday caused a panic among the pupils, in which a number of children were badly hurt by being trampled under foot. Several were scalded by escaping steam and water. None are fatally injured, however.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & McCARTHY,
Proprietors.
FRIDAY, NOVEMBER 23, 1894.

Cloudy with showers in northern portion; cooler Friday evening.

Under the management of Mr. A. F. Curran, the Dover News has been a success. He has proved too good a newspaper man to remain out of the harness very long.

"THE BULLETIN is very much exorcised as to who the Republicans will nominate for State offices," says the Ledger. Oh, you're away off again, Br'er Davis. We were simply giving the Republicans hereabouts some news that the Ledger seems to have failed to "catch on" to.

"WHAT the Republicans didn't get by conquest they hope to get by contest," remarks the Flemingsburg News. The last Republican Congress turned so many Democrats out of office that the next House will be overwhelmed with Republicans asking for places that the people at the polls refused to give them.

Oh, what an easy thing it is, Br'er Marsh, "to classify" Government employees. Each new department head can do that, and it will last only during his reign. See? It's the laws of Congress that they can't change.—Public Ledger.

We believe the editor of the Ledger attempted a little classifying shortly before his term as postmaster expired. At least there was left a neat little "roster" of the employees. But it didn't go. The classifying done since then, however, was done at Washington, and a letter recently received from Colonel John R. Proctor, of the Civil Service Commission, states that there is but one employee of the Maysville office who is not now protected by the civil service law, and that one is the chief clerk or assistant postmaster.

TYPHOID FEVER.

St. Louis Physicians Make a Valuable Discovery.

[St. Louis Globe-Democrat.]

The duration of typhoid fever is to be shortened by 10 or 12 days. To the medical profession of St. Louis must be awarded the credit of the method of treatment by which this boon to suffering humanity is to be brought about. The treatment consists in the application of the pure gall of an ox to the typhoid-stricken patient. This discovery has been made by Dr. Heine Marks, of the City Hospital, in conjunction with Dr. Henry Summa, also of this city.

The ox galls are used upon purely physiological principles. It is a fact, well established, that for the purpose of digestion it is an absolute essential to have a certain amount of bile in the intestinal canal. During an attack of typhoid fever, as of other diseases, there is a constant waste of this bile going on. Replace this bile and you check the disease and this can be replaced by ox gall, which is stated by eminent medical authorities to be nature's physiological antiseptic.

This view of typhoid fever has been held by Dr. Marks for a long time and finally in a discussion of the matter with Dr. Summa, the latter suggested that experiments with the ox gall should be made by the former, who possessed abundant facilities for experimental purposes. Dr. Marks immediately ordered a butcher to bring to the institution eight or nine ox galls every day. The gall bladder is cut at the top, so that the fluid is extracted, freed of all foreign matter. Then it is filtered, as a further precaution against the possibility of impurities. Each gall contains one or two ounces, or from four to six spoonfuls of liquid. These are put into about half a pint of water and the contents of one gall are given to the patient twice a day, being, of course, artificially applied.

"We experimented on a series of cases," said Dr. Marks, "and in every instance we obtained results which are highly gratifying. We took cases of all kinds, too; several where the fever had existed for one, two, three, four and five days, and we took those where there was about to ensue an increase of the temperature. And, as I have said, we met excellent results, and reduced the duration of the disease by 10 or 12 days. I am now endeavoring to discover some means by which the galls can be kept fresh. At present they have to be brought to us every day, and, naturally, we are anxious to discover some plan by which they can be preserved. Dr. Summa has gone to Hot Springs to attend the medical association which will be in session there for some days. He will read a paper on the subject, before that body and the new treatment will, therefore, be fully ventilated."

It has been discovered that the word s-t-i-n-n-e-d, spelled backwards, is the name of the merchant who does not advertise.

"GET TOGETHER."

Efforts In That Direction Now Being Made by Kentucky Democrats.

The latest political gossip at Frankfort is that a number of prominent politicians, friends of both Clay and Hardin, present candidates for Governor, are negotiating with them to get both to withdraw, in order to enter Congressman James B. McCreary, who is at present an active candidate for Senator Blackburn's seat.

The campaign between Clay and Hardin shows signs of becoming so bitter as to jeopardize party interests, and this is said to prompt the compromise move.

The Louisville Post's correspondent says: "The most forcible reason advanced by the harmonizers for desiring McCreary's nomination lies in the past success of their choice and his wealth and known ability to meet Colonel Bradley on the stump on State affairs, with which the ex-Governor is thoroughly conversant."

"It is further alleged that the Eighth district has been very close between the two parties in times past, and that Governor McCreary not only redeemed it and made it secure, but so well anchored it to the Democratic party that Colonel Bradley could never be prevailed upon to make the race for Congress against him."

"As the names of the most prominent in the movement mentioned have been freely spoken, it is presumed it is unnecessary to suppress further publication of them. They are Judge Garrett S. Wall, of Maysville, recently State Senator from the district; Judge-elect Thomas H. Paynter, of the Court of Appeals; Judge John P. Norvell, of Carlisle; nearly all the leading politicians of Harrison County, including Circuit Judge W. W. Kimbrough, Commonwealth's Attorney J. T. Simon, the Hon. William Adams, Chairman of the Democratic County Committee, Dr. H. C. Smith, brother of Congressman Smith, of Arizona; the Hon. A. H. Ward, Judge J. Q. A. Ward, formerly of the Superior Court, and Dr. T. H. Hood."

"In addition to these, it is said that Senator C. B. Martin and ex-Speaker W. M. Moore, of the same county, the Hon. Leslie T. Applegate, member of the Constitutional Convention from Pendleton County; ex-Congressman W. W. Dickerson, from Grant County, and Judge Charles J. Helm, of Newport, are among the leading spirits."

FREE TURNPIKES.

What the Lexington Gazette Says on the Subject—The People Want 'Em.

[Lexington Gazette.]

The Fiscal Court of Fayette County is struggling with the question of free turnpikes and, from appearances, it looks as if all the turnpikes in the county will become free in a year or two.

There are some anomalous questions connected with this subject. The stockholders will have to pay, by taxation, for the purchase of their own property and the expense of the purchase and maintenance of the roads is all thrown on the property-holders of the county.

But it seems that the people want free turnpikes and the Court is disposed to gratify them, and the negroes and the tobacco tenants will have a jolly time.

The new pike branching off from the Winchester pike just beyond the city limits and running out through Cadentown has been viewed and accepted by the Court, and is a good and useful road. It cost something like \$3,500 per mile, but it parallels two pikes and, being free, has made the stockholders of those roads willing to come to terms and sell their stock at reasonable figures.

Sued For \$20,000 Damages.

The widow of the late S. D. Clarke, through her attorneys, Hanson Kennedy and G. A. Cassidy, has filed suit in the Fleming Circuit Court against the L. and N. R. R. Company for \$20,000 damages, alleging that the death of her husband was occasioned by the willful neglect of the company in failing to keep its tunnel in proper repair.

It will be remembered that Clarke had one of his arms injured coming through the tunnel and died a week or so later of blood poisoning.

A Million Friends.

A friend in need is a friend indeed, and not less than one million people have found just such a friend in Dr. King's New Discovery for consumption, coughs and colds. If you have never used this great cough medicine, one trial will convince you that it has great curative powers in all diseases of the throat, chest and lungs. Each bottle is guaranteed to do all that is claimed or money will be refunded. Trial bottles free at J. J. Wood's drug store. Large bottles 50c. and \$1.

Just arrived, our celebrated Williams Pomeroy coal. Leave orders at our office at R. H. Newell's on Third street, next door to M. C. Russell's, or at our office, corner Second and Short streets.

The Old Friend

And the best friend that never fails you is the Simmons Liver Regulator, (the Red Z)—that's what you hear at the mention of this excellent Liver medicine, and people should not be persuaded that anything else will do.

It is the King of Liver Medicines; is better than pills, and takes the place of Quinine and Calomel. It acts directly on the Liver, Kidney and Bowels and gives new life to the whole system. This is the medicine you want. Sold by all Druggists in Liquid, or in Powder to be taken dry or made into a tea.

OAKWOODS SCHOOL.

What the Superintendent Says of it. Digressive and Discursive Remarks.

My last notes were somewhat digressive and discursive, but when you become a spectator in Vanity Fair, it is difficult to avoid noting your experience and observation. In Vanity Fair there are not always as they seem. Some of the actors do their part well, others ill, but all are trying to deceive each other and not unfrequently, though unwittingly, themselves. The pious Barebones is to be found frequently at the Fair, for it sometimes absorbs the churches. Bare bones is very devout, and in the sanctuary he rolls up his eyes, draws down the corners of his mouth, folds his hands and looks upward at the ceiling and prays, "God be merciful to you, a sinner." The secret "balloter" is at the Fair at election time. Oily Gammon steps into the voting booth; half a dozen poor ambitious candidates outside are watching and waiting. When he comes out he shakes hands all 'round saying, "Well boys! good luck to you! I stamped it down for you every time."

The gratified candidates offer up a silent prayer for his translation and that he may be borne away on "snowy wings," when his time comes. But Oily Gammon dropped his private memo in the booth accidentally and it falls into the hands of his candidates, when they discover that he voted against every blessed one of them. These and many other things occur in Vanity Fair. But I pass through the Fair promising, however, to return some day, and find the school house. No "Vanity Fair" there. Children do not resort to it. They are pure in heart and guileless and have no reservation, but greet you with an honest smile pumped up fresh from the heart.

We will stop at Oakwoods school, No. 41, and there I find as I have always found an excellent school. The scholars take interest in their studies and, under the instruction of Mr. George Turnipspeed, give evidence of careful training. Questions were answered with readiness and the scholars pay close attention to the address of the Superintendent. Two scholars from this school, Wm. King and Agnes Guerin, have been before the County Examining Board and received certificates entitling them to teach in any public school in this county. This speaks well for the school. None of these children were ever at Vanity Fair. The trustees are James Curtis, Wm. King and John Brodt, and they deserve praise for their fidelity. The house is an excellent one, beautifully situated in an oak grove and the trustees have during the vacation made very valuable improvements at the suggestion of the Superintendent. We have never had any trouble in this district and always visit it with pleasure.

MAYSVILLE.

Dr. J. J. Werner has gone to Elizaville.

Mrs. Anna Wilson and Miss Mamie Scott have returned from the West.

William Myall, wife and child, of Paris, are here, having come down to attend the Collins-Myall wedding.

Captain Scrugs, of Elizaville, came over this week on a flying visit. He is a jolly soul and a strong advocate of Colonel Breckinridge.

Elder Irvin, of Poplar Plains, filled the pulpit of F. M. Tindler very acceptably last Sunday morning and evening. He is a fine reasoner and a pleasant talker.

Mrs. J. A. Jackson, who has been quite poorly for the past week, is on the improve. Dr. J. H. Kelly waited on her. He is a rising young physician and is kept busy riding.

On November 20th, Mr. Scott Collins, of Fleming County, and Miss Lula Myall, of this place, were united in the holy bonds of matrimony. It was a beautiful wedding and a handsome couple, and the marriage was very largely attended. The church had been handsomely decorated under the supervision of Miss Myra D. Myall. And another thing which added to the occasion, there was no organ to drown the beautiful and impressive ceremony performed by Elder F. M. Tindler who officiated. The groom left with his bride for his home in Fleming. They take with them the best wishes of all their many friends here.

Our holiday offer: 12 cabinets and life size portrait, only \$5.

Miss Lillian Smoot Entertains in Honor of Mrs. Louie Smoot—The W. A. S. Club

Miss Lillian Smoot, of East Second street, entertained very handsomely yesterday afternoon from two to five o'clock in honor of her sister, Mrs. Louie Smoot, nee Worthington. She was assisted in receiving by Mrs. Gordon Smoot.

The Smoot residence is quite well adapted for large entertainments and was taxed to its utmost by the many callers during the hours. The decorations were pink and white chrysanthemums; the table being particularly artistic in its trimmings of pink chrysanthemums and smilax.

Miss Lottie Berry gracefully served orangeade in the parlors, and in the dining room, Miss Lottie Perrine, Miss Smoot, of Louisville, and the Misses Dobyns served chocolate, wafers and candies.

Mrs. Louie Smoot's receiving gown was most tastefully chosen, being an old rose taffeta with elegant trimmings of jet and lace. She carried a bouquet of white chrysanthemums.

A DELIGHTFUL LUNCHEON.

The W. A. S. Luncheon Club was delightfully entertained Wednesday afternoon, the hostess being the attractive and charming Miss Bessie Owens.

At 2 o'clock five young cooks gathered around the daintiest of tables, with its snowy damask and sparkling glass and partook of the deliciously prepared menu, consisting of croquettes, salad, cream biscuits, Neapolitan fruit pudding, blanched almonds and coffee. In the center of the table of pink appointments was a magnificent cluster of chrysanthemums of that shade, with trailing smilax.

The emblem of the club was represented in the china decoration—violets. Two of the club's members were away. The words of Shelley might be used to express the motto of the club.

"Though we eat little flesh and drink no wine, Yet, let's be merry: we'll have tea and toast: Custards for supper, and an endless host Of syllabubs and jellies and mince pies, And other such lady-like luxuries."

Cupid's Conquests.

The spectacular part of the operetta of "Cinderella" which will be given by the pupils of the Cincinnati public schools at Pike's Opera House during Thanksgiving week, promises to excel in beauty and grandeur all former efforts. This entertainment is under the auspices of the Cincinnati Board of Education and the proceeds from it are to be used to purchase clothing for poor children. The cheap rate C. and O. excursion Wednesday, November 28th, will give you an opportunity to witness the grand spectacular production.

SEVERAL decades have passed since Goethe's "Faust" was pronounced the best tragedy of the modern stage. During that interval nothing has been produced to render this criticism less just. Its story is of such vivid interest that its recital will bear numberless repetitions, and it is a significant and happy fact that this popular play conveys but the most impressive lessons of purity, worth and virtue. The principal character of the tragedy is necessarily "Mephisto," as portrayed by John Griffith. Scenically "Faust," as presented by Manager Church's company, is a most magnificent production and should win the approbation of all play-goers at our theatre Saturday night. A return engagement.

But the paper is somewhat more elastic than the genuine and the bill is a little larger than the legal money.

THE TURNPIKES WIN.

Judge Harbison Sustains the Demurrers to the Indictments—Other Circuit Court News.

The cases of the Commonwealth against the Maysville and Lexington, the Maysville and Germantown, the Maysville and Mt. Sterling and Maysville and Mt. Carmel turnpike companies for charging higher toll than the new law allows was decided in the Circuit Court yesterday, and the companies won. The demurrers were sustained and the indictments were dismissed. There is no appeal to the Appellate Court, as the highest fine under the law is only \$50.

The cases were argued by Senator Lindsay for the companies and Commonwealth's Attorney Sallee for the prosecution. Senator Lindsay claimed that the officers of the road were the ones to indict and not the companies. But the main point of the defense and the one on which the cases were decided was that the companies had a right under their charters to charge the rates of toll they have been collecting. The court decided, in brief, that these charters were contracts between the State and the companies, and could not be abrogated by the State.

MR. AND MRS. CHARLES E. SMITH, of Limestone street, have the sympathy of their friends in the loss of their infant son, Bert Leyland Smith. The little one died this morning at 3 o'clock, aged about seven months. It had been ill but a few days, with something like pneumonia.

DUDLEY BAKER'S livery stable opposite the Capital Hotel, Frankfort, was destroyed by fire Thursday morning. Six horses, about a dozen of the vehicles and all of the feed were burned. George Morris, who was sleeping in the stable, was awakened and found himself surrounded by flames, but made his escape.

AT noon Thursday engine No. 296, E. T. Elliot, engineer, and J. K. Wright, conductor, with a train of 30 cars, was the first to pass over the handsome new five-span bridge just finished by the C. and O. Railway across the Big Sandy river. The bridge is a combination foot, wagon and railroad bridge, and connects Kenova and Catlettsburg, as well as gives the C. and O. Railway a new crossing of the river and a much shorter route than the old line.

A SPECIAL from Frankfort says that notwithstanding the constitutional provision that the compensation of no officer shall be either increased or diminished during his term of office, some of the Judges of the Court of Appeals, by a peculiar operation of law, may get an increase of \$1,000 per annum in this instance after January 1st. The three new Judges of the court would clearly be entitled to the increase to \$5,000, but there was some doubt as to whether Judges Pryor, Lewis and Hazelrigg, who are in the midst of their terms, would not be left to the \$4,000 salary upon which they were elected. The officials are generally of the opinion, however, that the constitutional provision for a reorganization of the court January 1, 1895, suspends the provision in regard to increasing or diminishing salaries during their term in the present case, and that beginning on that day all of the Judges will be entitled to draw the \$5,000 per year.

THE Portsmouth Times roasted "His Nibs, the Baron." It says: "The acting was very indifferent and amateurish—in fact, was not up to the average amateur shows, while the specialty work of the individual members of the troupe was not worthy of the name. The singing was simply execrable, the voices both male and female being of the fog-horn, buzz-saw persuasion. Whatever else they may be good for, none of the company are cut out for actors. The play is a very pretty one, full of fun, if properly presented."

THE day after Colonel Sam. Stairs and Mrs. Mary S. Grove were married, the bride purchased the outfit of the Dover News from Mr. A. F. Curran, and gave it to Mr. Stairs. Mr. Stairs is also owner and editor of the People's Party paper, the "Searchlight," and it is his intention to issue both publications at Dover as formerly. He will move the printing office to the handsome new building of Mrs. Stairs, corner of Market and Poplar streets, Dover, and will then have one of the most complete printeries in the State, says the News. The News adds that the fortune of the bride is estimated at \$150,000, \$50,000 of which is in Government bonds.

LAID TO REST.

The Body of General John C. Fremont Finally Buried.

NEW YORK, Nov. 23.—A party of about 50 people journeyed out to Rockland cemetery at Sparkill, N. Y., yesterday, to attend the ceremony of placing General John C. Fremont's body in its final resting place. The services at the cemetery were of the simplest description. The burial service was read by the Rev. Ward Dennis, the rector of Christ church, Sparkill. Rear Admiral Meade made a brief address, in which he referred to General Fremont's labors on behalf of the slaves. He was followed by the Rev. E. Crowell, who spoke of General Fremont's personal characteristics. Mrs. Margruder placed some flowers in the box in closing the casket, and with the lowering into the grave the ceremony came to an end.

General Fremont died July 13, 1890. The funeral services were held in St. Ignatius church, on Fortieth street, this city, two days later. The remains were placed in a receiving vault in Trinity cemetery, from which place they were removed on March 17, 1891, to the receiving vault in Rockland cemetery, where they have been at last interred.

Investigating Those Seizures.

SANDUSKY, O., Nov. 23.—The United States gunboat Fessenden, Captain Hodson, is now anchored in the harbor. She is here to investigate the alleged unlawful molestation of American fishermen by the Canadian ram Petrel. Several days ago the Petrel, claiming that the Americans were fishing in Canadian waters, drove them away and seized their nets. Captain Hodson of the Fessenden, in an interview, stated that a full investigation would be made. With Collector of Customs Herbert he proceeded to get the affidavits of fishermen whose nets were taken.

Firemen's Headquarters.

TERRE HAUTE, Ind., Nov. 23.—The grand trustees of the Locomotive Firemen, who have been considering the inducements of several cities desiring to secure the headquarters in case of removal from Terre Haute, left for Indianapolis yesterday. From there they go to Evansville and possibly Cleveland. Representatives from Fort Dodge, Ia., and Fort Wayne are here. Terre Haute business men hope to retain the offices, but the belief is general that they will be removed and that either Cleveland, Indianapolis or Evansville will get them.

Bank Shut.

SPOKANE, Wash., Nov. 23.—The Citizens' National bank will not reopen for business. This decision was reached at a directors' meeting. The bank will go into liquidation. Its assets were \$425,000; liabilities, \$240,000. The institution closed its doors during the panic of 1893, but afterward reopened under authority of the comptroller of the currency. At that time it obtained extensions from its depositors of \$172,000. All of these have been paid but \$12,000. The city alone has taken \$70,000 out of the bank.

The Standard Not in Texas.

NEW YORK, Nov. 23.—Regarding the indictment of Flagler, Rockefeller and others by the grand jury of McLennan county, Texas, Wednesday, S. C. T. Dodd, attorney for the Standard Oil company, said to a newspaper representative: "The same thing has been done before and the indictment was dismissed, as it undoubtedly will be in this case. The Standard Oil company does no business in Texas, anyway, but sells to St. Louis parties, who supply the trade in the southwest."

Some of the Gang, But Not Bill Cook.

FORT SMITH, Ark., Nov. 23.—Deputy Marshal Smith has telegraphed the marshal's office from Wichita Falls, Tex., that one of the four captured suspects is the famous "Skeeter" of the Cook gang, but Bill Cook is not of the party. The other men under arrest are Charles Turner, William Farris and Jesse Snyder, who robbed McDermott's store and postoffice in the Cherokee recently. They are all dangerous robbers.

FOOLING WITH MOONSHINERS.

Only One of the United States Deputy Marshals Came Back Whole.

It was known in the United States marshal's office at Nashville that wildcat whisky was coming down the Cumberland river. The marshal was new in office, and therefore was determined to do his duty, which, of course, was to see that the illicit distilleries, no matter how remote, should be destroyed, and that the distillers should be brought to justice. His predecessor in office had been likewise determined and had sent brave men to the mountains, but whisky had continued to come down the Cumberland river. The present marshal, Captain Hayes, an old Confederate officer, said that he thought that when the boys found out that he really wanted them to quit they would do so. He understood them, he knew their natures, their impulsiveness and their disposition to yield to persuasion. So he sent a deputy and four men to tell the boys to quit. One night about a week later some one rang the doorbell, and the marshal himself went to the door.

"Why," said he, "have you got back, Caney?"

Caney answered, "Yes, just about."

"Where is the deputy marshal?"

"Well, he's back too."

"Why didn't he come around?"

"Well, I 'lowed that his folks needed him more than you did, so I unloaded him there."

"What, you don't mean that he's hurt?"

"No, not hurt now, but he was. He's dead at present. I'm the only one that got back whole."

"Well, I declare! Didn't you tell those boys that I wanted them to quit their foolishness?"

"Yes, and they must have been hard of hearing, for they kept on a-shootin'."

Have you a baby

that is making you old before your time with worrying? Is it weak, delicate, puny? Are you fearful lest it be taken from you? Mother! Will you read this letter about

Brown's Iron Bitters

It is genuine—not paid for or even solicited—and the writer is the happiest woman in New Orleans.

509 DUFEDES STREET, NEW ORLEANS, LA.
Enclosed you will find a photograph of my youngest boy, Clarence. He was sick about seven months; nothing cured him but Brown's Iron Bitters. He is now a year old, well and hearty! I cannot say too much in praise of Brown's Iron Bitters.

MRS. L. LEVERINGER.

This letter was written on July 25th, this year. Have you a delicate child? Life for many children in Brown's Iron Bitters!

The Genuine has the Crossed Red Lines on the wrapper.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

THE PEOPLE'S GROCERY
